VINFINITY® SYSTEM V-6 CUT SHEET

IMPORTANT NOTES

The Vinfinity System uses standard 3/8" I.D. beverage lines for vacuum and is typically installed using a spare line from the soda system.

The distance from the vacuum tank to the CVU or Vacuum Stations is not a factor.

The CVU should be off the floor in a dry place.

CVU DIMENSIONS

Unit Weight: 35lb
 120 VAC, 60 Hz, 1 Phase, 3.7 Full Load Amps
 6 foot North American cord supplied
